

## About PMA

The Palestine Monetary Authority (PMA) is an independent public institution responsible for the formulation and implementation of monetary and banking policies to maintain price stability and low inflation, foster financial stability and safeguard the banking sector and promote sustainable growth of the national economy. PMA works to achieve these goals through:

- Development and execution of monetary policy designed to ensure low inflation and achieve price stability.
- Effective and transparent regulation and supervision of banks, specialized lending institutions and money changers operating in Palestine.
- Overseeing the development, implementation and operation of modern, efficient payment systems.

PMA operates by an act of the Palestine Legislative Council's PMA Law Number (2) of 1997, which stipulated the proper authority and autonomy of the PMA and the Banking Law Number 9 of 2010.

### Vision

To be a full-fledged and modern central bank for Palestine, capable of achieving monetary stability by keeping inflation under control, and maintaining financial stability. PMA also works to achieve sustainable economic growth, and promote integration into the regional and global economy.

### Mission

To maintain financial stability, through the development of a sound and secure banking system, an efficient national payments system, achieve financial inclusion, and ensure monetary stability by keeping inflation under control and fostering price stability.

### Governance

The PMA has issued a Corporate Governance Code for banks to ensure that banks adopt and implement sound corporate governance practices and therefore maintain public trust and confidence in the Palestinian banking sector. The Code has been set at a high standard, consistent with the international best practices.
